

THE TRADE REVIEW BY DUN & COMPANY

BUSINESS SHOWS A MODERATE IMPROVEMENT.

An Important Feature Is the Advance in the Produce Markets—Confidence Returning—Failures for the Week Show an Increase Over the List of Last Year.

New York, Sept. 26.—R. G. Dun & Co.'s Weekly Review of Trade says: "A very moderate and yet distinct improvement is seen, no longer only in the buying of materials, which continues and stiffens prices, but also in orders for products of some industries, in money markets and in exports of staples. Continuing arrivals of gold have raised the treasury reserve above \$125,000,000, strengthened the banks and relaxed the stringency in commercial loans, so that at about 1 per cent lower rates more business was done than in three previous weeks. Hoarding is no longer reported, but some hoards are being unlocked. The movement of crops continues large, and purchases for export have advanced prices or prevented depression.

"An important change is the general advance in produce markets, especially in wheat, which rose sharply on Thursday and Friday, closing 5½ cents higher for the week, with much buying, apparently on foreign account. Reports of crops abroad were supposed to be the chief cause, as visible supplies in this country increased largely, but for the first time since July 1 western receipts fell below those of the same week last year. They are still large and for the first quarter of the crop year thus far have been 52,721,158 bushels, against 40,414,351 last year, a gain of about 30 per cent, and it is conceivable, but cannot be considered quite probable, that such receipts have come from a crop smaller than last year's, although prices averaged 10½ cents lower in July and 6.8 cents lower in August than last year and only fell below last year's in September because of the sharp decline then and as much advance now.

Atlantic exports, flour included, were for the week a little more than a year ago, for September 2,000,000 more, and 21,807,553 bushels since July 1, against 14,128,308 last year. If there should come an unusual foreign demand it would make a great difference with future business.

Cotton advanced ¼¢ a week ago, but lost 3-16¢, and with full receipts might have gone farther but for the resumption of work by several important mills. Speculative buying of wool does not abate. The sales are largely for cash and by holders who have maturing notes to meet, though some have been for export, in spite of a decline of 5 per cent in the London opening. A few of the woolen mills are resuming.

Finished products of iron meet more inquiry, and the placing of contracts for 15,000 tons of steel for three new battle-ships, for one large building here and for several bridges explains the starting of two or three works, but with such months as have passed a little business is a gain. A sharp fall of \$2 per ton in low phosphorus pig and a slight rise in gray forge at Pittsburgh and in steel plates are the only changes noted in prices, but billets are still sold by outsiders at \$19.50, bar steel at \$1.05 and furnace coke below \$2, with an output of only 50,177 tons weekly at Connellsville, though all the combinations maintain their prices. Exports of 50,000 tons of rails this year at prices far below those current here and 25,000 tons of pig to England at \$8.93 at Manchester, freight being at least \$3.15, indicate unloading a surplus abroad to avoid weakening markets here. The plates are slightly lowered by home competition to \$3.55, against \$3.90 for foreign, and tin is a shade weaker at 13¢, copper at \$10.75 and lead at \$2.80.

Failure for the week have been 315 in the United States, against 216 last year, and 39 in Canada, against 50 last year.

Costa Rica Boundary.

Washington, Sept. 26.—A cablegram from Managua, Nicaragua, received by the Costa Rican minister, Mr. Calve, conveys the news of the ratification by the congress of Nicaragua of the convention for the final settlement of the long standing boundary question between those two countries. According to one of its provisions, the two governments shall ask the president of the United States for the appointment of an engineer who shall act as an arbitrator in any case of disagreement between the two respective surveying commissions of the two countries.

Family Feud in Kansas.

McPherson, Kan., Sept. 26.—B. Becker lies in the county jail, arrested on two charges of assault and battery. Becker lives seven miles south of McPherson. The Peter Buller family, five in number, are his neighbors. Trouble has been brewing between the two families for some weeks. Last Sunday the quarrel culminated in a general fight, in which Becker is reported to have had the better of it.

No Fatalities Will Result.

Mexico, Mo., Sept. 26.—All of who were injured in the fire which destroyed the Missouri Military academy Thursday morning are doing as well as could be expected, and it is almost certain that no fatalities will result.

ANOTHER NIGHT ATTACK.

Rioters Attack a Leadville Mine and Are Driven Back.

Leadville, Colo., Sept. 26.—At 9 o'clock Friday night word reached headquarters that the guards at the Ibez mine had been fired on, but no one was hurt. The guard returned the fire and sent out a squad to try and run down the attacking party. About thirty shots were fired and it is not known whether or not any of the strikers were wounded.

For the first time in years the entire force of the state militia is congregated in one town, the last of the troops arriving this morning. Had it not been for this fact there would probably have been serious trouble here when the sixty miners from Joplin, Mo., arrived.

The miners came on a special train and were met at Malta, three miles out, by two companies of militia. They escorted the train to the city, where it was met by fifty men with two gatling guns. The sixty miners were surrounded by soldiers and taken to the Emmett mine.

As they proceeded along the street friends of the strikers crowded closely upon the troops and showered abusive epithets alike upon miners and militia. One officer finally drew his sword, striking one of his tormentors across the face with the flat side of the sword. The order was given to charge the crowd with gun butts and push them back to give room for the marching column. The march was then resumed without further incident.

The provost guard parades the streets, preventing the gathering of three or more men at any time and place and compelling all to keep moving.

Outside miners will be shipped in as rapidly as possible now, and in anticipation of further trouble, which the townspeople say cannot be prevented, 300 citizens of the town have enlisted in the militia and arms have been shipped from Denver to equip them.

THIRTY TRAIN LOADS AT M'KINLEY'S HOME, WHILE BRYAN HUNTS UP IDLE HEARERS

MANY DELEGATIONS CALL ON M'KINLEY. MR. BRYAN MAKES SPEECHES AT BOSTON.

Thirty Special Trains Chartered To Carry the Admirers of the Champion of Protection—Indiana and Pennsylvania Is Represented Yesterday—Some Gold Standard News.

Canton, Ohio, Sept. 26.—The members of the McKinley household had hardly breakfasted Friday when a delegation of glass workers arrived on a special train from Marion, Indiana. In response to their address Major McKinley explained to them the benefits of protection to their industry.

Shortly before 11 o'clock a special train of twelve coaches on the Cleveland, Canton and Southern brought a delegation to visit Major McKinley and extend the greetings of Crawford County, Pennsylvania. It included a club of students from Allegheny College, which McKinley attended in 1860. Rev. Dr. Flood of Meadville, prominent in Chautauqua circles, made the introductory address.

Just at noon the third delegation reached the McKinley home. It was made up of farmers and came from Wyandotte county, Ohio, on a special train of nine coaches. Congratulatory addresses were made by Mayor Robert Carey, Gen. J. M. Kirby and Editor P. Cuneo of Upper Sandusky, a former subject of Italy. Mr. McKinley replied:

The regular Pittsburg, Fort Wayne & Chicago train arrived from the west at 1:30 o'clock p. m., carrying three extra coaches occupied by a delegation of citizens from Tiffin and Seneca counties, Ohio. George E. Schroth was their spokesman, and his address included the presentation of a framed portrait of the late Gen. W. H. Gibson, sent by his widow. Mr. McKinley responded.

Today will be a busy day for Maj. McKinley. Thirty special trains are scheduled from various sections of the country. The first will be the Commercial Men's club of Peoria, Ill. Pittsburg has twelve of the thirty trains chartered. Cleveland comes in for a large number. It will be woman's day of the western reserve, and Cleveland excursionists are expected in large numbers. Maj. McKinley will make thirteen speeches unless the delegations combine.

PALMER IS APPLAUDED.

Meeting Held in Baltimore in the Interests of Gold.

Baltimore, Md., Sept. 26.—A thoroughly sympathetic audience, numbering between 4,000 and 5,000 assembled in Music hall here Friday night to greet Gens. John F. Palmer of Illinois and Simon B. Buckner of Kentucky, the nominees of the gold democratic party for president and vice-president. Both gentlemen were hailed with applause, and the points in their addresses were received with shouts of approval. The meeting was held under the auspices of the gold democracy of Maryland, and, prior to the introduction of the candidates, an electoral ticket for the state was unanimously ratified by those present.

J. J. Donaldson of this city presided, and the list of vice-presidents embraced the names of many of the representative merchants and financiers of the city and state. Gen. Palmer was escorted upon the platform by ex-Gov. William Pinckney White, and when the audience caught sight of them it rose en masse and cheered itself hoarse. This demonstration was repeated when Gen. Buckner appeared.

W. Burst filled in the time.

Says Knapp Killed Ida Gebhard.

Indianapolis, Ind., Sept. 26.—One year ago at West Indianapolis Ida Gebhard, a 4-year-old child, was enticed into a stable, assaulted and murdered, her body being concealed in an old tool chest. Shortly afterward Albert Knapp, a resident of the suburb, was arrested for an attack upon a girl 13 years old, and sent to the northern penitentiary for ten years. A man who was in prison for one year for larceny was Knapp's cellmate. He says that Knapp told him he outraged Ida Gebhard and then hid her body in the chest in the stable. Knapp was suspected of the crime at the time, but there was no evidence against him.

Addresses a Crowd on the Historic Common—Mr. Sewall Also Present at the Meeting—Governor Altgeld at Danville, Ill.—Other Popocratic Happenings.

Boston, Sept. 26.—William J. Bryan and Arthur Sewall, democratic candidates for president and vice-president, addressed two crowds, one on Boston Common and the other in Music hall. Conservative estimates say 70,000 persons were present at the first gathering, and at the latter the house was jammed and thousands were turned away. Today the state convention of the democrats is being held in Music hall.

Mr. Bryan addressed a big crowd at Worcester at 3:30 o'clock. Immediately after the Worcester speech he took the train for this city. The candidate, with his running mate, Arthur Sewall, and members of the reception committee, occupied a temporary platform in the center of a broad campus, and the crowd entirely surrounded the little spot. James H. Mellen of Worcester introduced the speakers.

The first speaker was Joseph T. O'Sullivan of Lawrence, prominent as a candidate for lieutenant-governor.

Mr. Bryan appeared at 7:30. It was fully seven minutes before he was allowed to speak. During his speech Mr. Bryan changed his position to the other side of the platform as many as eight times during his address. Facing the portion of the crowd which seemed largest, he called his companion to his side and both stood upon chairs. Here Mr. Bryan introduced Mr. Sewall to the crowd. The latter made a short speech.

In the old-fashioned Music hall William Jennings Bryan closed one of the most eventful days of his eastern tour. When the building had been filled from wall to wall the doors were closed.

A crowd of more than 1,000 people gathered in Memorial hall to await the coming of Mr. Bryan. He arrived about midnight, made a short address, and then retired to Mr. Williams' home, where he passed the night.

Springfield, Mass., Sept. 26.—Greatly refreshed by a ten-hour sleep, William J. Bryan left Hartford at noon Friday. There was a small crowd at the depot to catch a parting glimpse of the nominee, and to these Mr. Bryan made a few remarks. The first stop was at Windsor, where a small crowd had gathered. At Windsor Locks, the next stop, the assemblage was more enthusiastic for Mr. Bryan. Thompsonville also gave him a cordial reception, and he was cheered enthusiastically by the few hundred people gathered about the depot.

Policemen Guard a Boston Hall.

Boston, Mass., Sept. 26.—At the conclusion of Mr. Bryan's speech in Music hall Friday night the great body of auditors—or those of them who are delegates to the state convention today—remained in their seats, in compliance with the advice of Mr. Williams, and listened to addresses urging them to hold the hall until 11 a. m., the hour set for the assembling of the convention. The reason given for this proceeding on the part of the delegates is that when the convention is called to order they will be in their seats and thus preclude the attempt of the so-called "regulars" to oust them. The doors of the hall were locked and policemen placed on guard by the owners of the building, who allowed no one to enter, a lunch ordered for the delegates being also locked out.

Populists Call a Conference.

Policemen in three patrol wagons and eighty workmen from the foundry followed the robbers, who were in a buggy, but the pursuers were too far in the rear at the beginning of the chase. The buggy of the robbers was broken by a collision with a post. Then they ran across lots and seized a milk wagon, fired a bullet in the milkman's leg and sped away in the vehicle as fast as the horse would go. The milk wagon was afterward recovered where the robbers left it.

More than a dozen shots were fired by the robbers and at them but no one was hit except Frank Nyholt, the milkman. The police were too late to get sight of the robbers or take part in the shooting.

THE GAZETTE GETS COMPLIMENT

Madison State Journal Says Kind Words For This Paper.

Under the heading "An Up to Date Newspaper," the Madison Journal says:

"Wisconsin newspaper men have often noted in looking over the exchanges the illustration-service of the Janesville Gazette. It seems to be no trouble for that sprightly daily to throw on its pages at the shortest notice, not only the pictures of national celebrities who fall dead or make speeches about crosses of gold or who paint pictures that take prizes; but The Gazette also as readily shows pictures of its citizens who deserve to be held up for admiration or thrown down for culpable doings. It seems that The Gazette is the only paper in Wisconsin that uses portraits made entirely in its own office. The Milwaukee Sentinel has an artist, but he simply makes the drawings, and the etching is done by an engraving firm. The Gazette makes all the portraits it uses, except such as are run across in the plates, and have two or three hundred pictures of local men in stock made in their own plant. B. F. Cowlan, news editor, does the drawing, and recently that gentleman received an invitation to make his own portrait for use in a directory of artists. The Gazette is an eight page paper that puts up its local and general news in a way that is the envy of many of its contemporaries. It is a credit to the city and from the prosperity of the concern the people evidently know a good thing when they see it."

SAYS GOODBYE TO JOHN S. LYNCH

Beloit Free Press Bids the Avon Man Good Speed.

it to the voters of the town of Avon to say whether or not you are the leader of the republican forces in their locality. Two years ago the republican vote of Avon was 99, and the combined opposition 60. If that vote is reversed in November then the world will know that you are indeed the "leader," but if it is not, what must the world think? Good bye Jack, may you feel easier now that you are home again.

BOARD OF REGISTRY MEET NEXT MONTH

VOTERS MUST ENROLL THEIR NAMES AGAIN.

Before Fall Election, New Poll Books

Must Be Made—Inspectors Do the Work—Two Days Each in the First and Last Weeks in October the Time.

The registration booths will be open for the registration of all who wish to vote at the coming general election at 9 o'clock on October 6 and 7 and again on October 27 and 28. The inspectors of election in each precinct will serve as a board of registry. By section 12, chapter 288, of the laws of 1893, all cities and villages of 3,000 inhabitants and above are obliged to prepare a registration list for every general or municipal election. In preparing the list the inspectors usually take the poll list of the last previous municipal election, erase the names of those who have died, moved away or become disqualified and add the names of all additional persons qualified. For the first days of registration the voter may appear in person or have his name sent in for entry, for the second he must appear in person to swear if needed, or send in a sworn affidavit that he is entitled to vote in that special precinct. The first list is usually published and posted up in conspicuous places while the corrections and additions made at the second meeting of the board are usually published in the newspapers. Anyone becoming qualified to vote between the last day of registration and election day, can vote by presenting a sworn affidavit of his own and those of two freeholders, that he is qualified. No charge may be made for such affidavits, nor may one freeholder corroborate for more than three persons. All qualified electors may vote who are residents of the city and have lived ten days in the precinct in which they are registered. Every one will be presumed a resident of the city, who swears he has made it his home and against whom no proof to the contrary can be brought.

ROCK STANDS IN SECOND PLACE

Only Dane County Raised More Leaf Tobacco This Year

From the assessors' returns on file with the secretary of state, the following statistics are gathered regarding the tobacco crop of Wisconsin:

Counties	Acres in '96	Acres in '95	Lbs. in '95
Columbia.....	734	606	438,575
Crawford.....	279	140	237,316
Dane.....	5,957	6,783	5,582,653
Green.....	43	57	48,800
Grant.....	21	13	7,725
Jefferson.....	245	234	280,900
Rock.....	4,285	4,476	5,264,607
Vernon.....	579	619	660,269
All other counties.....	47 1/2	75	80,000

Total.....12,290 1/2 13,026 12,245,719

From the figures given above it may be seen that the acreage of the '96 crop has decreased less than 800 in the state over that of a year ago. A good liberal estimate of the present crop would hardly place it much above 50,000 cases of merchantable tobacco.

The wholesale lumber firm of Pendleton & Gilkey, of this city, have received an order from one of the largest retail lumber firms in Nebraska, that tells its own story. When an order like this comes from Bryan's own state, it shows how wise business, even in a supposed Bryan stronghold, look at the situation.

Merit Talks

"Merit talks" the intrinsic value of Hood's Sarsaparilla. Merit in medicine means the power to cure. Hood's Sarsaparilla possesses actual and unequalled curative power and therefore it has true merit. When you buy Hood's Sarsaparilla, and take it according to directions, to purify your blood, or cure any of the many blood diseases, you are morally certain to receive benefit. The power to cure is there. You are not trying an experiment. It will make the blood pure, rich and nourishing, and thus drive out the germs of disease, strengthen the nerves and build up the whole system.

Severe Case of Dyspepsia

"I suffered from dyspepsia 20 years. I had a feeling as though there was a lump in my stomach. I did not dare to eat meat or warm bread, very few vegetables, for fear of the great distress food caused me. I experienced relief right after commencing to take Hood's Sarsaparilla. My appetite increased, I gained in general health and strength. I can eat almost anything now without discomfort. Although I had been an invalid for twenty years, I can truthfully say that I am better than for a long time. I never weighed so much in my life." MRS. EMILY F. 'A GREEN GOODS MAN' COMING

The New Farce Comedy Will Be Seen at the Myers Grand.

"A Green Goods Man" the new farce comedy which appears at the Myers Grand Wednesday evening, Sept. 30 is a new departure in that well worn class of entertainments. It possesses the happy faculty of amusing an audience and at the same time presenting scenes on the stage which also instruct. The comedy gives in a farcical way all the different modes of swindling and although presented in such a form are so true to nature and such faithful representations that an entertainment is afforded which every one should see. While it is not at all probable that the reader may come in contact with this class of people still it does no harm for everyone to be fully posted on how these things are done. This then may be called the secret of this farce's great success in that it instructs as well as amuses. The convulsions of laughter which roll through an audience as they see the Yankee farmer bunched by these different schemes is a commentary upon the utter indifference the average man possesses for his brother man. Intersingled through the comedy is a number of catchy songs and dances, bright specialties, presented by clever men and women. The ladies with the bright faces and handsome gowns form a picture which stands in bright relief, and is pleasing to the eye. The company is far above the average seen in this class of plays.

WHEN?

When the republican party will have outlived its usefulness—

When the lion eats oats like an ox,
And the fish-worm swallows the whale;
When the tarapins knit woolen socks,
And the hare is outpied by the snail;
When the serpents walk upright like men,
And doddie-bugs travel like frogs;
When the grasshopper feeds on the hen,
And feathers are found on logs;
When thomas-cats swim in the air,
And elephants roost upon trees;
When insects in summer are rare,
And snuff never makes people sneeze;
When fish creep over dry land,
And mules on bicycles ride;
When foxes lay eggs in the land,
And women in dress take no pride;
When old soaks no longer drink beer,
And girls get to preaching on time;
When the billy goat butts from the rear,
And treason no longer is crime;
When the humming bird brays like an ass
And lumberjacks smell like cologne;
When plow shears are made out of glass,
And the hearts of police are of stone;
When ideas grow in populists' heads,
And wool on the hydraulic ram;
When republicans then will be dead,
And this country not worth a darn.

The Shoes Are Here.

We spoke a few days ago of receiving word from a shoe manufacturer with whom we placed a large order, that our shoes had been shipped, and would probably reach here within a few days. They came yesterday, and, if we may appear conceited, are the prettiest line of fall and winter shoes for men in the city. Twelve different styles came in they invoice, and any one of them draws forth admiration from those who have already inspected them. There is a style, a grace about our goods not found in the usual everyday stock. That's why we have the name of being the up-to-date shoe men of the city. We want you to come in and look over our late arrivals, even though you don't buy. Our large ad. tells about some of them. A. Richardson Shoe Co.

The Improved Welsbach Light is the best light for the eye, because the brightest, the steadiest, the softest. It so disseminates its rays that every part of the room is uniformly lighted. It gives three times the illumination of an ordinary gas jet and consumes but half the gas. It's the right light for any purpose.

NO CREDIT EITHER WAY

There is glory in victory; there is credit in honorable defeat; but men who sell out their principles get nothing but contempt the world over.

So it will be in the present campaign.

So many men have risen superior to party in defense of personal and national honor that the example set by the revenue politicians seems all the more pitiable by contrast.

When a man says he believes one way but intends to vote another, he deliberately forfeits public confidence.

For the man who cannot see the dishonesty of a law that makes fifty-three cents legal tender, when one hundred cents are due, there may be excuse.

A simple question of right and wrong has been so hidden beneath talk of "ratios" and "ultimate redemption" that many right-minded people are befogged.

There is justification for any man who acts up to his best light.

For the man who has been a conscientious and determined advocate of sound money and who puts on the free silver yoke through hope of personal advantage no such justification exists.

He has been false to his convictions, has betrayed his conscience, and however liberal his reward, he must feel that friends as well as foes think of him as a renegade and a turncoat.

JOHN C. SPOONER'S IDEA.

If all the Recorder's utterances were as consistent as John C. Spooner's there would be less cause for the judicious to grieve.

Mr. Spooner's loudly heralded "silver speech" was made in support of an emergency measure, the Sherman law, and was a thorough-going declaration against opening the United States mints to the silver of the world.

Nobody will go wrong on the coinage question who takes Mr. Spooner's speech as a whole and abides by its teachings.

We recommend to the Recorder's attention the passage in which Mr. Spooner remarks:

"There are men (in congress) who were in favor of the free and unlimited coinage of silver, but who, believing that there is no more sensitive point than this question of circulation, they wanted good money and not cheap money; we believed that while the coinage of the silver dollar under proper limitation should be proceeded with, it should at all hazards be done that silver and gold should boom along together and that our

people should not get to be upon a silver basis with Mexico and with India, we were ready to coin the products of American mines, but we are not willing to open our mints to the coinage of silver of the civilized world."

The Recorder says the six years ago John C. Spooner had a different idea on the currency question. The Recorder isn't obliged to go back six years to get the facts in its own case.

Mrs. Pinkham's Tender Relations With the Suffering of Her Sex—Women Who Cannot Hide Their Happiness.

There is a class of women who, from their own experience, sympathize with their suffering sisters, and in order that such suffering may be lessened, no bly put aside false modesty and in heartfelt gratitude publish to the world what every woman should know.

Mrs. W. L. Elliott, Liscomb, Iowa, is one of those women, and has requested us to publish the facts in her case, otherwise it would not be done, as all such evidence is treated in sacred confidence, unless publication is requested by the writer.

She says to Mrs. Pinkham:—"I wish you would publish the circumstances of my case, in order that other women may be benefited by my experience."

"I doctored nearly all the time for two years. I spent several hundred dollars without receiving much benefit. Last June I wrote to you and described all my aches and pains. Such a long list as there was: headache, backache, bearing-down pains, terrible soreness, constipation, dizziness, feeling of extreme lassitude, irregularity and nausea; but you answered my letter and told me just what to do. I followed your advice."

"After taking eight bottles of the Vegetable Compound and three bottles of Blood Purifier, I am glad to write you that I have not enjoyed such good health for years, and I am able to do all my own work. I can surely sound the praises of Lydia E. Pinkham's Vegetable Compound, and a number of my friends are taking it upon my recommendation."—Mrs. W. L. ELLIOTT, Liscomb, Iowa.

In above Flue Construction there are Four Surfaces Radiating Heat.

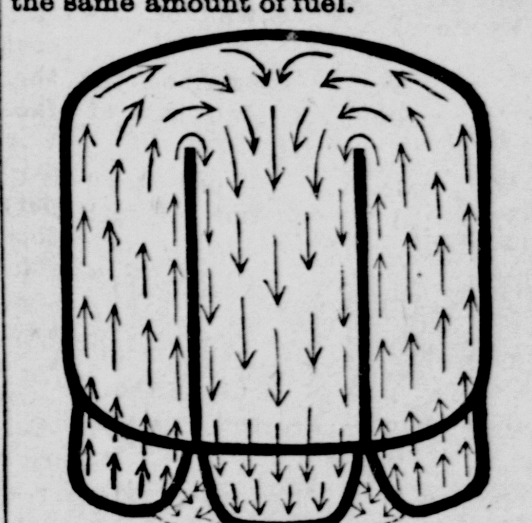

THE NEW WAY.

In above Flue Construction there are NINE Surfaces Radiating Heat, Increasing the Heating Capacity with the same amount of fuel.

Above cut illustrates the arrangement of Bottom Flues in nearly all base burners, showing the Heat is not Equally Distributed.

The above Bottom Flue Construction causes the Heat to go to the Outer Surfaces, Largely increasing the Heating Capacity and Economizing in Fuel.

The "Favorite" Base Burner has More Heating Capacity and is the Most Economical Stove ever made. Why? Because it has about 1/2 more Radiating Surface as compared with same sizes of other base burners, and is Mounted and Fitted Perfectly.

SPooner TO SPEAK AT MYERS GRAND

**BIG REPUBLICAN RALLY TO BE
HELD TONIGHT.**

Eloquent Ex-Senator Will Expound
Republican Doctrine—Many Visi-
tors Likely To Be Present—Rousing
Rally Held at Newark—Gold Democ-
rats at Edgerton—Political Points

John C. Spooner, the eloquent ex-
senator, will expound republican doc-
trine at the Myers Grand tonight, and
a big audience will doubtless be on
hand to hear him. Colonel Spooner is
one of the most pleasing as well
as one of the most convincing
speakers on the
platform, as
Janesville people
know full well.
Ladies are espe-
cially invited to
attend the meet-
ing. The at-
tendance will
probably be very
large, as Captain
Van Kirk, the
JOHN COIT SPOONER,
county chairman, has been notified of
several delegations that will come if
the weather is pleasant. Farmers, es-
pecially, are interested in this cam-
paign, and large numbers will be here
to hear the man they all admire.

All republicans are requested to
meet at the club rooms on the bridge
this evening at 7 o'clock, at which
time all will be provided with badges,
after which they will march to the
opera house headed by the band.

Ex-Senator Spooner will be at the
Hotel Myers after 6 o'clock this eve-
ning to greet all his friends.

HELD A BIG RALLY AT NEWARK.

Town Hall Filled by an Enthusiastic Au-
dience Last Night.

One of the largest and most enthu-
siastic rallies that has taken place in
Rock county this fall, was the Repub-
lican meeting that took place in the
town hall at Newark last evening.
Ten of Janesville's prominent republi-
cans drove down in the afternoon,
and took a prominent part. Upon ar-
rival they were given supper at the
cozy home of V. S. Davis. The meet-
ing was held in the city hall and the
crowd completely jammed the build-
ing. Attorney W. G. Wheeler, the
candidate for the assembly was the
first speaker. When he stepped
forward he was greeted with a rous-
ing cheer. Other speakers also dis-
seminated the word, and it was eleven
o'clock before the meeting came to a
close. Republican sentiment is very
strong in Newark.

Ellis Boynton, of San Jose, Cal.,

passengers but one voted for Bryan,
the remaining sixteen favoring Mc-
Kinley. That is just what 16 to 1
means—sixteen votes for McKinley to
one for Bryan.

WICKED WIFE FLED FROM EVANSVILLE

**AND A SCANDAL WILL NOT
NOW BE AIRD.**

Private Detectives as Well as Police
Figured in the Affair, and Some of
the Entanglements Extended to This
City—Big Row Under the Surface
—People Are Prominent.

There is one less woman in Evans-
ville, these days, and thereby hangs a
tale. Some time ago, a good sized
scandal developed in that place, and
there was a big row—under the sur-
face. Private detectives were put at
work, and soon there were revelations.
The carryings on of the interested
parties extended to this city, and
there were plots and counter-plots,
some of which came to a denouement
here. A mass of evidence—some
twenty-seven counts, it is said—was
collected, and all was ready for the
closing chapter—which was to have
been enacted in the divorce court.
Witnesses were summoned, in some
cases at considerable trouble and ex-
pense, and the affair had nearly
reached a climax, when one of the in-
terested parties discovered what was
in the wind. Rather than appear in
court, she hurriedly packed her trunk,
and the next day, left the Cut Off City.
Chicago was her destination, and she
passed through Janesville enroute,
while the husband came down the
next day to make sure that she had
really gone. This ending of what
promised to be a very serious affair, is
said to be thoroughly satisfactory to
all hands, and the local officers are
now "looking wise," denying that
they knew anything about it; and
smiling in a self satisfied way as they
think of the disagreeable tasks they
have escaped as the result of the
woman's flight. One of the private
detectives, who was sent to Evansville
by a Janesville officer at the request
of one of the persons interested, is
now dead, but his "evidence" is said
to be in the hands of the proper per-
sons and in due form. No stir has
been made about the affair, but it
was an exciting one just the same as
the parties were prominent people in
Evansville.

**BARABOO BOYS PLACED UNDER
ARREST.**

Charge is That They Robbed the Rail-
road Eating House of \$223—Pass
Through Janesville on Their Way
Home, in Charge of Sheriff and
Detective.

Sheriff H. H. Halbur of Sauk
County and Peter Valleley, the well
known Chicago & Northwestern rail-
way detective, were in the city last
evening on their way to Baraboo from
Chicago. In the latter city they cap-
tured two men who were said to be
clever thieves. Some time Thursday
evening thieves broke into the rail-
road eating house at Baraboo and se-
cured \$223 in money. The robbers
left for Chicago on the Dakota pas-
senger which leaves Baraboo about 2
o'clock in the morning and reaches
Chicago via Atton. J. R. Howland
and E. E. Harrington, two Bara-
boo boys, were suspected and
Detective Valleley was telegraphed.
The young men were arrested
as the train was entering the
Chicago yards. The young men as
they waited at the depot in this city,
presented a sad appearance. They
were handcuffed together and looked
as though they were fully aware of
the fact that the state prison seemed
to stare them in the face. Sheriff
Halbur remarked to a Gazette
man last evening that there
was little doubt as to the
guilt of the young men. At the
time of their arrest \$223 of the \$223
was found upon them together with a
bunch of skeleton keys.

COAL AND WOOD

HERE ARE REMEDIES FOR BRYAN DISEASE

SPECIFIC FOR THOSE AFFLICTED WITH SILVER LUNACY.

If Silver Was Stricken From Our Coinage in 1873. Why Are There More Silver Dollars Now Than There Were in Circulation Then?—Other Nuts.

1. That omission of the silver dollar from free and unlimited coinage in 1873 "destroyed half our money."

The per capita circulation in 1873 was \$18.04. In 1873 we had neither gold nor silver in circulation. The total of our money, including treasury coin, was \$751,881,809. July 1, 1896, our money in circulation consisted of gold coin, \$456,128,483; standard silver dollars, \$52,175,998, 614,043 in the treasury; silver, \$59,999,804; gold certificates, \$95,217,000; "Shermans," \$95,217,000; "backs," \$225,451,358; currency, \$31,840,000; national bank notes, \$215,331,927. This makes a per capita in circulation of \$21.10. (See official treasury report.)

2. That the act of 1873 "destroyed silver as money."

Under our limited coinage of silver we coined from 1878 to 1896, eighteen years, a total of \$471,927,729. During the entire eighty-five years previously, with free coinage up to 1873, the total silver offered and coined was \$222,585,921. (Mint reports.)

3. That the act of 1873 was a "gold conspiracy against silver."

It was earnestly supported and voted for by the senators and representatives of the silver states. The bill was referred to the finance committee of the senate April 28, 1870; submitted to the house June 25, 1870; passed through various stages, all public and of record, until Feb. 12, 1873, when it became a law. (See Laughlin's "Bimetallism," p. 98, or Congressional Record for the years indicated.)

4. That legislation can keep up the price of silver.

During the operation of the Bland-Allison act (1878), when the government was buying \$2,000,000 monthly, and during the operation of the Sherman act (1890), when the government was buying 54,000,000 ounces annually, silver declined per ounce from \$1.16 to 73 cents. (Mint reports.)

5. That because silver cannot be kept at par with gold, in a "poor" country like Mexico, it must not be presumed the United States cannot keep the metals at par.

This is suppression of the fact that all the countries now on the gold standard tried to keep the metals at par and failed, one group consisting of the combination of France, Italy, Belgium and Switzerland. Can the United States hope to succeed alone where all the greatest countries in the world, singly or in combination, failed?

6. That gold and silver with free coinage at 16 to 1 is the "money of the constitution."

Read the constitution.

7. That free coinage of silver at 16 to 1 of gold is the money of Jefferson, Hamilton and Jackson.

Read their writings. Each knew that unless the coinage ratio approximated closely to the market ratio the undervalued metal would not circulate and advised accordingly.

8. Bryan garbles Blaine and quotes Carlisle before the great era of silver production set in.

Read both ungarbled.

9. That dropping the silver dollar from the coinage of 1873 cut down prices and wages.

So long as wages do not fall, decline in prices is an indication of prosperity. From 1879 to 1895 the savings bank deposits increased from \$802,490,298 to \$1,041,867,500. This stands for surplus after wages have supported the earners. It is not hereditary wealth. That seeks other banks. A non-partisan committee of the United States senate reported in 1894 that in twenty-one industries wages were 40 per cent higher in 1880 than 1860 and 60 per cent higher in 1891 than in 1860. The fall in farm products was due to overproduction, other countries competing with the United States.

10. That while free coinage of silver will advance prices of commodities, it will also advance wages.

The same report shows that between 1860 and 1865, when gold went to a premium, as it will under free coinage of silver, the average price of all articles in this country advanced 116 per cent and the average increase in wages was 43 per cent, although during that time there were withdrawn from the labor market 2,800,000 men, making a scarcity of labor. There will be no withdrawal now. Wages, therefore, cannot rise, because the supply will be in excess of the demand.—Chicago Times-Herald.

No Classes in This Country.

There are no classes, thank God, in this country. There are no places of power or wealth to which the humblest boy may not aspire. Every president since Washington has come from the ranks, and all our prosperous business men are of the people and have climbed from the bottom. The pretense that 100,000 bankers and money lenders will be at each one of the 100,000 voting places influencing or controlling the vote of 14,000,000 voters, or that there have been in prior presidential or congressional elections, is an assumption more monstrous than the destruction of this earth by having

swung around it the atmospheric tail of a flying comet. At Albany Mr. Bryan spoke smugly of confidence as the "confidence man," evidently meaning that the gold standard was a "confidence man," and the free coinage of silver at 16 to 1 industrial and financial prosperity and happiness. The gold "confidence man" who has been governing this country since the war has paid off most of our national debt; has more than doubled the mileage of our railways and telegraphs and nearly doubled the number of our states; has furnished homes and employment for 70,000,000 of people to live better than 30,000,000 did before; has created the new south; has advanced wages and decreased the cost of living.

What has the free coinage of silver "confidence man" done? Let the distressed farmer and the unemployed millions of the United States answer at the ballot box. Lack of confidence has destroyed the purchasing power of the country; destroyed the power of the country to produce.

A Word on the Side.

How well I remember Grover's last rally, I walked in the line with the working-men sure, And I felt just as proud as a king, At beholding the fall of the rich and the rise of the poor, Sure, that's what they could me was meant by the victory; No wonder that I was elated at that, For I stepped to the music just like an old soldier And I wore a big rooster in the top of me hat.

I envied the boss with his riches and comforts, No share of the profits I'd get if agin I voted to kape up the tariff that only Protected the bosses and burdened the men.

Ah! sure, I'll get even with yez, now me honeys, And I'll vote just as sure as me name it is Pat, For Grover, and then at the ratification I'll wear A big rooster on the top of me hat.

I done it—bad luck to the day and the hour; I'd like to recall that same vote if I could, And once more agin hear the ould stam whistle sounding

That called me to work when the times they were good. The boss he looks worried, and the foreman is sour, And the ould mill is deserted and gloomy at that;

All I've got left for my share of the glory Is the ould battered rooster I wore on me hat. I mustered up courage one day to spake to him, And I asked him how long we'd be idle; You see the mill had been shut down for a fortnight, and loafin' And not a cent comin' in was tellin' on me—

Says he, "Yez and I'll both suffer; Me business is crippled and me credit is flat, But if yez get hungry, ye know," he said shyly, "Yez can ate the ould rooster yez wore in yer hat."

Now that's the whole story, and none can deny it— The truth must be told though the heavens should fall— But we made a mistake in defeating the party That gave us protection, good money and all.

But in two months from now yez may talk till yer spachless, And yez can argify till yer as gray as a rat; But if that same party is agin triumphant The divil of a rooster I'll wear on me hat.

—Tom McGuire, in Lincoln (Neb.) Call.

Honest Chinese Silver.

In answer to the World's queries Li Hung Chang has corrected an error of importance.

Even China, according to Earl Li, is not on what we mean here by a silver basis. Even that country makes no effort to give fiat value to any coin. China uses silver only, except as to minor token coinage. But China does not compel or ask or expect anybody to accept 53 cents' worth of silver as a dollar.

Trade there is carried on in Mexican dollars, in Chinese dollars of exactly the same weight and fineness, and in uncoined bits of silver. But all of these are passed by actual weight. Each buys only and exactly its equivalent. Each passes at its bullion value—no more, no less.

China may be backward and even barbarous in some things, but at least that country has never compelled anybody to accept as a dollar a piece of coined or uncoined silver worth less than a dollar.

The Chinese government certifies the weight and fineness of its silver coins. It makes no effort to give them additional value by fiat of law. That country has never yet authorized any debtor to cheat his creditor out of a part of his dues.—New York World.

Satisfaction.

She sat in church that Sabbath day With a very satisfied air, For well she knew, down in her heart, 'Twas the swellest there.

The camel is a beast of great strength and endurance. Nothing hurts it until the proverbial "last straw" is added to its burden. The human digestive system is very much like a camel. It is really astonishing how much abuse it will stand. Sometimes, however, something worse than usual will be eaten, and will go through the stomach into the bowels, and there it will stick—that's constipation. Nine-tenths of all human sickness is due to constipation. Some of the simplest symptoms are coated tongue and foul breath, dizziness, heartburn, flatulence, salivaceous distress after eating, headaches and lassitude. A little thing will cause constipation, and a little thing will relieve it. Dr. Pierce's Pleasant Pellets are a certain cure for constipation. They are tiny, sugar-coated granules, mild and natural in their action. There is nothing injurious about them. Sold by druggists.

Applied to Her Mouth.

"My dear," he said in the middle of the rather protracted curtain lecture. "Don't interrupt me, John Henry," she returned.

"It's only for your own good," he said, apologetically. "You see, you may let your mouth inadvertently get you into trouble."

She felt that he had something mean to say, but her curiosity forced her to ask what he meant.

"A very earnest attempt is being made," he said, "to enforce the midnight closing ordinance."—Chicago Post.

Business and Politics.

Mr. Stealall—I have done you a good many favors in the past, buying up delegates for you, carrying conventions for you, hiring repeaters, counting votes, and so on; and now, as I am out of a job, I thought maybe you could give me a chance in your factory. I hear you are in need of a confidential bookkeeper.

Great Statesman (also a big manufacturer)—Um—er, I don't think you would suit in that position. But I'll tell you what I'll do; I'll back you for county treasurer.—N. Y. Weekly.

Worst Kind of a Case.

"You look thin and careworn, Tadley," said the man in the russet shoes. "Insomnia!" replied Tadley, with a groan.

"Insomnia?" repeated the man in the russet shoes. "Oh! come now, a man with no more than you have to worry him doesn't get insomnia."

"It's the baby that's got it," explained Tadley, as he stepped off the ferry-boat and resumed his struggle with life.—N. Y. World.

A Bona Fide Announcement.

"Take that bicycle," said the dealer to his assistant, "and put it in the window with a sign announcing that its price will be \$65 this week only."

"Supposing we don't sell it, shall I change the price next week?"

"Certainly. We never deceive the public. Next week its price will be \$60."—Washington Star.

Easily Remembered.

"Beg pardon, sir," observed the tough-looking waiter, suggestively. "Gentlemen at this table usually—er—remember me, sir."

"I don't wonder," said the customer, cordially. "That mug of yours would be hard to forget."

And he picked up his bill and strolled leisurely in the direction of the cashier.—Tit-Bits.

Sweet Creatures.

First Fond Mamma—Ah, Mrs. De Smith, I'm so glad to see you. I've such news to tell. Percy Hawkins is going to marry our little Alice. Dear child, it doesn't seem as if I could bear to part with her.

Second Fond Mamma—No, you've had her on your hands so long now I should think it would be rather lonely some without her.—Cleveland Leader.

...Adam Fell...

This was the first fall that is on record, and it was at an early date, long before the invention of the flannel night shirt, but if that fall was as chilly as this promises to be, no doubt Adam would have appreciated such a garment---for no modern invention with the possible exception of the liquid bait, can, and the curling iron, has so completely filled a long felt want as the flannel night shirt. Nothing that the women of the house could do would be more appreciated by the men folks than to take up a pair of these garments for him; he is sure to like them and their possession will make him happy.

Our way of handling the material that goes to make up these gowns brings their cost down to a fraction, for we sell shilling values for a sixpence.

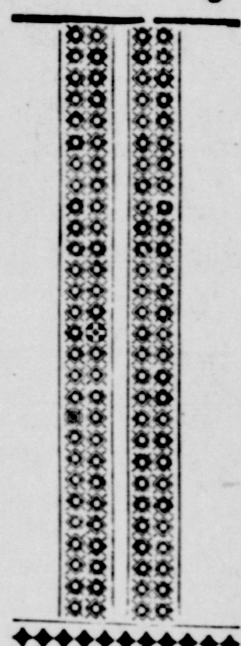

Whittenton's English Flannel-ettes is the name of the fabric, which comes in both light and dark colors, is weighty, soft and fluffy, pleasant to handle and pleasant to wear; positive value is a shilling, and our price today is half,--6¼c. 6 yards makes a night shirt, costing 38c; 5 yards makes a gown, 31c. **3,500 yards**, today and while they last, 6¼c per yard.

Do not confound these with goods you see in other stores at a similar price, for these are far superior, and as in the case with any of our advertised specials, are a positive bargain.

Advantage of

Buying.

Early

WE buy our goods in advance of the season. By doing so we can take plenty of time to compare styles and prices, pick out the handsomest patterns, and decide on the best qualities. We get just what we want and have it on hand just when we want it. We like the plan so well that we strongly recommend it to our customers; it will pay

them for exactly the same reason that it pays us.

. . . The man who buys early gets a full season's use of his clothes; he finds the new suit or overcoat very comfortable several weeks before he expected to need it, and he is usually better satisfied because he has taken time to make a careful selection. . . .

. . . We cordially invite you to come and examine the new goods even if you are not quite ready to buy. It will do no harm to get an idea of the fall styles.

We want to show you the famous Browning, King & Co. and Stein Bloch Co's.

Fall Suits and Overcoats

which are especially tailored for us. There is no tailor who can produce more style than is embodied in these 15, \$18 and \$20 suits and overcoats.

T. J. ZEIGLER,

Take a little time and look over our overcoats, you'll need one later.
